

WHAT'S IN YOUR TOOL BOX!?

Manufacturers of Fine Clays and Machés

FIXIT® is used around the world by sculptors, restorers, miniaturists, hobbyists, crafters, and repair persons. It is used in homes, museums, schools, motion picture studios, aquariums, and theme parks. FIXIT® is a self-hardening synthetic clay that combines the features and benefits of clay with those of epoxies.

FIXIT® Sculpt is the newest product in the FIXIT® line. It is great for many uses that require all of the qualities of regular FIXIT®, plus it offers exceptional sculpting qualities. It has a firm feel more quickly after mixing; it resists sagging and drooping; it holds detail and impressions; has a flat matte finish; accepts paints and stains, and offers a very generous 4 hour working time.

FIXIT® Sculpt

REPAIR SHOPS • HOBBIES • ARTS • CRAFTS • SCHOOLS • MUSEUMS

Features and Benefits

- FIXIT® is a self-hardening, 2-part product (A & B must be mixed)
- Blends and smoothes easily
- Clay/putty-like consistency
- Firm feel for modeling/tooling
- Resists sagging and drooping
- Holds details and impressions
